Dear Mr. Wiseburg

Congratulations on the wonderful work that you did & are doing especially your latest "White Wash" Dick & I surely enjoyed it last night on Radio W.C.A.U. & Jack is a wonderful interviewer he's unique.

When the woman called & said she thought that was awful, & why can't something be done about getting the right one who killed President Kennedy? You said something could be done & she asked how & you told her if everyone would write & Congress to have this brought up it could be done.

I thought if the people wouldn't write then it would never be known in this world but another thought followed I believe that if the people won't write you could put out a little book the size of the enclosed & sell it for either 5 or 10 cents as the enclosed, this size often

sells for 5 cents but 10 at the most & come back some nite on W.C.A.U. when Jack M. is doing the interviewing as he did last nite & I do hope he wouldn't be all on on a vacation for I could listen to him all nite & if you could sort of write up something the size of the enclosed surely most people have a dime & say it would be true & fair to hear & to read this small book & that it at least we thought it was too bad that Jack Ruby killed Oswald an innocent man & this should bring to an end innocent people going to Jail & to the Chair or being shot down dead like a dog

Congratulations on the book being a best seller

Thanks heaps & heaps for this wonderful book & I do hope it will Continue always as a best seller & that it will change many many things but especially that never again shall an innocent victim go to jail or the Chair.

God bless you & yours now & always.

Sincerely
Dorothy
